SUMMARY

Full Stack Developer with one year of hands-on experience in designing and developing scalable web and mobile applications using modern technologies, including React, React Native, Node.js, and PostgreSQL. Skilled in building cross-platform solutions, optimizing APIs for performance, and enhancing user experiences. Proficient in Agile methodologies, with a strong ability to collaborate effectively with multidisciplinary teams to deliver robust, high-quality software solutions tailored to business needs.

EDUCATION

Pallavi Engineering College BTech - Electronics and Communication Engineering	Hyderabad , India 2022
Government Polytechnic Hyderabad Diploma - Electronics and Communication Engineering	Hyderabad, India 2017

EXPERIENCE

Genamplify Solutions Hub Pvt Ltd <i>Full Stack Developer</i>	Jan 2024 – Present Hyderabad, India
<ul style="list-style-type: none">Designed and developed intuitive, responsive frontends using React.js for web and React Native for mobile, creating scalable, reusable components and ensuring high-quality user experience across platforms.Implemented dynamic functionalities and RESTful APIs with Node.js, managing complex data interactions using PostgreSQL to support seamless, real-time updates and enhance data security.Enhanced application speed and responsiveness through continuous testing, debugging, and optimization in both web and mobile environments, maintaining best practices in code quality, scalability, and architecture.Designed intuitive and user-centered web interfaces and applications using Figma to enhance user experience.	

PROJECTS

Ship-Ease (On Going)	Jan 2024 – Present
<ul style="list-style-type: none">Ship-Ease is an innovative delivery management platform designed to streamline logistics operations for businesses and individual users, providing a comprehensive, user-friendly experience for modern transportation needs.The platform includes seamless booking options, real-time tracking for transparency in deliveries, inventory management to keep track of goods, and secure payment systems to ensure transaction safety.Developed with a hybrid approach using React.js for the web interface and React Native for mobile, Ship-Ease offers an accessible, responsive experience across devices, allowing users to manage deliveries on the go.Advanced delivery and payment features enhance platform usability, and strategic collaboration with partners like Idea Usher has strengthened the platform's architecture and functionality, supporting robust logistics solutions.
